

Legal Document Consistency Audit

Date: 2026-04-10 **Tool:** `scripts/check-legal-docs.ts` (automated, 29 checks) **Result:** 29/29 passed

Pages Audited

Page	Path	Sections
Terms of Service	<code>/terms</code>	15 sections
Privacy Policy	<code>/privacy</code>	16 sections
FAQ	<code>/faq</code>	9 sections
HIPAA Notice	<code>/hipaa</code>	Full notice

Vendor Disclosures (consistent across all pages)

All four legal pages disclose the same two vendors:

Vendor	Services	Certification
AWS (Amazon Web Services)	RDS PostgreSQL, ECS/Fargate, Bedrock (AI), SES (email)	HIPAA-eligible, SOC 2 Type II, BAA executed 2026-02-25
Stripe	Payment processing	PCI DSS Level 1

Resend is not mentioned in any legal page. AWS SES is explicitly named in the primary AWS vendor bullet and the vendor commitments paragraph of the Privacy Policy.

Check Categories

Category	Checks	Status
Breach notification (60-day, FTC, HHS)	3	All pass
Audit log retention (6-year, carve-outs)	4	All pass
Cache TTL (24-hour)	1	Pass
Encryption (AES-256-GCM, TLS 1.2+)	2	All pass
Pricing tiers (Trial/Starter/Plus/Unlimited)	6	All pass
Data processors (AWS, Stripe)	1	Pass
BAA execution date	1	Pass
No AI model training	1	Pass
Policy change notification (30-day)	1	Pass
CMS non-endorsement	1	Pass

Resend NOT named (replaced by SES)	1	Pass
Negative checks (no false PII claims, no stale TTL)	2	All pass
AWS Bedrock no-retention	1	Pass
Medicare data scope (Patient, Coverage, EOB)	1	Pass
Disconnect deletes cached data	1	Pass

Automated Audit Tool

The checker runs from the project root:

```
npx tsx scripts/check-legal-docs.ts
```

Header comment includes a reality-sync date (2026-04-10) and a note that checks must be updated in the same PR as any pricing, vendor, or feature change.
